

SUITS AND COATS

Any Number of Decidedly New and Attractive Models

The flared coat still holds favor, and as warm weather approaches the silk suit and the suit of medium weight materials, such as Poplins and Serges, are taking first place.

There are times as the warm days approach when you simply must have a suit—nothing else will answer. So, then, it is economy to buy a suit that will fit in with your actual wants—and make the selection at once.

These Suits at \$16.50 Are Values Out of the Ordinary

Several features contribute to warrant us in making this statement. The materials are Wool Poplins and Serges. The styles are absolutely correct—the workmanship all you could possibly ask for. The coat is in the flare ripple bottom type with pockets. Skirt is in the flare model.

Afternoon or Evening Dresses \$15.00

Wish we could describe the pretty design of this Dress and also the odd manner in which the material has been draped and caught in various ways, producing a decidedly charming effect. Materials used are Taffeta, combined with Georgette Crepe or Crêpe de Chine, also White Net.

Sport Coats Are In Greater Demand Than Ever

And since you must have a coat for cool evenings, cool days, or when you go on an outing, we would advise you to buy one of the new Sport Coats, because it will answer a double purpose. We have them in Striped or Plaid Chinchilla, White and Colored Corduroys, etc., priced at \$8.87, \$10.95 and up.

Information has just reached granite shippers of a change in demurrage rates, effective April 4, raising the rates from one dollar per day to two dollars per day after car has been under demurrage three days. Local shippers claim to have received no notice of such a change from the railroad companies and believe that they are justified in insisting upon due notice when such charges are to become effective.

Athletic talent from Granitville, Westerville and East Barre has been assembled by Capt. John Duncan of the Barre hose company's running team for service in tomorrow's track meet with Goddard seminary at the Ayers street park. The matches are to begin at 3 o'clock and field and track events will be in progress at the same time in order to make it possible for the athletes to complete the events before dark.

The high winds of last night gave the Vermont Telephone & Telegraph Co. some trouble with crossed wires and broken poles. About 25 lines were affected and five or six poles were broken off on the east hill besides one or two in other parts of the city. Most of the lines are in use now, however, as the outside gang started work on the repairs at once. A man on Newton street was somewhat startled last evening when a large window at his side was suddenly broken by the force of the wind. As far as could be ascertained the break was due simply to the wind pressure, as nothing hit the glass.
